# Download

This demo video is about how to quickly create barcode labels using the DRPU Barcode Label Maker software. It can be useful for preparing labels for printing, so it is recommended to review and use it in your work. Services have been developed for the effective use of city libraries. Information search forms and various scenarios for working with catalogs are integrated, which can be used by libraries to quickly solve problems to improve the quality of visitor service. The recommendations are based on the extensive historical experience of libraries in implementing popular services based on information technology. On December 5, within the framework of the V Ural International Exhibition "Information Technologies for All", a seminar "New Horizons for the Development of Information and Communication Technologies for Education" will be held. As part of the event, a round table "Actual trends in the field of future technologies" will be held at the new "Library Hall" at 15:00. "Libraries of the Future" is an annual international forum within the framework of "Total Dictation", which was held on April 22 for the sixth time. For two days, the organizers were able to show the
