Last updated on 5 Oct 2007, 15:35. Tomislav Cesar 2 Years Ago. Pack: P3D V4 - Prepar3D Professional V4.Q: Replace part of data frame with mean of other rows I have a data frame containing a variable and a value. Every row in the data frame has the same value. I want to replace the value in every row by the mean of all the other values. Here is what the data frame looks like: A B 1 5.0 12.5 2 7.0 15.0 3 3.2 5.1 I want it to look like this: A B 1 7.0 12.5 2 7.0 13.0 3 3.2 5.1 EDIT: Actually, my data frame is much larger (10-100 rows). I only put some random numbers to show the difference between the original data frame and what I want to get. I hope I made the question clear enough. A: If we assume that your column A does not contain duplicated values, we can do this rowMean
