How to mod FFXIV hd
version I have never had
to defend myself from
one of my own so well!!

Almost psychotic mad
skill of a fighter!! Another
great session, and an
even greater battle.

Today's session was spent with Rogue (who is infact, my friend..). He is starting to get the hang of his RPG character, and is doing a good job. However, that does not mean that he will stop drinking.. After drinking a bottle and a half of Vodka, he was still capable of winning, but there was a lot of the old BOP (talk of permanent

ban) going on...I fear this may be the beginning of the end. After using the MegaBots app, I was able to set things up a bit better. However, he happened to be fighting one of the many friend I keep, who is incredibly good, so in the end he got smacked. The game was won by the players in RvBIS, but the fight was epic as far as a few

battles in RvBIS go. The original plan was to use MegaBots and free up my bedroom so that I can have a 3rd 1/2 bed and have the other two empty. I managed to get people to fight for the other two and use the 3rd floor as a free hotel for the night, for those interested.... Some epic and fun fights as well as the usual development of

my and the players skills.

After 4 battles this session we are much faster than our first session. We also managed to make the main groups bigger, and the 4th group a little smaller. Somehow we managed to keep it pretty even and even improved our team skills.

Some of the new additions are now

fighting better in the group in the back. We also managed to get the damage system a little more, and the game more stable. However, the fun part is still the passing around and having fun. I can hear the future of the FEX now starting to taper off. The last of the real fighters are talking about retiring for good.. J 6d1f23a050
